The foundation for good oral health for children relies on the role of parents. Parents are a great role model for setting a daily routine and making their children understand the importance of oral hygiene. A child’s daily oral hygiene routine makes a significant impact on their overall health and ensures a strong and healthy development.

So many parents face challenges in providing means for proper oral health care which result in inadequate care for their children. Tooth decay is the most common childhood disease. Untreated tooth decay can cause pain and infections that lead to problems with eating, speaking and learning. Consider the facts:

- By the age of 3, 5-10 percent of U.S. children have oral health issues.
- By age 5, about 60 percent of U.S. children will have had caries at some point, including the 40 percent of children who have it when they enter kindergarten.
- Children from poor families are more likely to miss school due to dental problems.
- Often, cavities are the least of the oral health concerns for many children.

That's why Healthy Smiles, Healthy Children (HSHC) supports community-based initiatives providing Dental Homes to children from families who cannot afford dental care. HSHC is committed to establishing a Dental Home by age one for all children.

In 2014, HSHC made its largest grant commitment of more than $1.1 million to agencies providing care for underserved kids. HSHC has issued more than $3 million in grants and commitments helping 70 organizations in 26 states provide Dental Homes to more than 290,000 children.

HSHC annually awards single-year grants of up to $20,000 supporting dentist-led efforts providing care to underserved children. In 2014, we released up to $400,000 in single-year Access to Care Grants. We introduced multi-year Access to Care Grants of $375,000 each to two organizations. HSHC plans to release another $1 million in new commitments next year.

Healthy Smiles, Healthy Children’s growing number of AAPD members, dental industry leaders and community providers are making a difference in child oral health. We are grateful for our donors, volunteers and grantees who are continuously helping to provide Dental Homes for children. A Dental Home provides a positive environment where the parent will be happy to return with the child for his or her ongoing care.

On behalf of the board of trustees of Healthy Smiles, Healthy Children, the officers and trustees of the American Academy of Pediatric Dentistry and our dedicated volunteers and staff, we are pleased to present this 2015 Annual Report.

Every child deserves a Dental Home. Thank you for playing your part.

Gratefully,

Healthy Smiles, Healthy Children is proud to partner with 22 organizations this year and provide an unprecedented 1.1 million grant dollars for underserved children to have a Dental Home. Since 2010, HSHC has donated more than $3 million in support of Access to Care initiatives helping more than 290,000 children in 26 states. Healthy Smiles, Healthy Children is paving the way to be the leading organization supporting children’s dental needs.

HSHC commits over $1.1 million in Access to Care Grants in 2015

The Waukesha County Community Dental Clinic (WCCDC) has been the recipient of funding through HSHC. Because of these financial resources, the WCCDC provided an average of 700 appointments per month, serving as the Dental Home to 2,437 children throughout Waukesha County in 2014. Being a Dental Home means that these children have access to regular, ongoing preventative and restorative dental care. Being a Dental Home requires more than reactive dental care. It involves being a seamless point of contact for the patient and family, as well as a compassionate source of information, education and referrals, which the WCCDC dental team does every day. We focus on the outcome of sending every child we touch home with a healthy smile. The WCCDC believes that having good oral health positively affects a child’s overall health, school attendance, self-confidence and success in life.”

Dental Home Day
Annual Dental Home Day brings HSHC mission to Boston

Tufts University School of Dental Medicine in Boston played host to the second Healthy Smiles, Healthy Children Dental Home Day, a day of service that kicked off the 2014 AAPD Annual Session. Sixty AAPD members and affiliated volunteers from across the country helped provide free dental care to 71 children during Dental Home Day, which is held each year during the AAPD Annual Session.

Dental Home Day is more than just a day of service, it’s a year of care. Patients receive ongoing care supported by HSHC Access to Care Grants. Tufts received a grant of $30,000 to provide ongoing care to participating children for the next year.

Dental Home Day’s reach extends far beyond a single event or moment in time. “Dental Home Day kids, parents, dental professionals and volunteers say that the Dental Home Day experience can change the lives of everyone involved, forever,” said HSHC President Dr. Beverly Largent. “This ongoing care for the other 364 days of the year helps improve children’s quality of life, their development and overall well-being.”

The event will be sponsored through 2016 by Sunstar Americas, Inc.

“I was overwhelmed at the generosity. Today was wonderful. Everybody was friendly, and the emphasis on the children was incredible.”

~ Jackie Sorensen, parent of child who received care during Dental Home Day in Boston.

The fourth cohort of the Leadership Institute met for its first session at the Kellogg Graduate School of Management at Northwestern University Dec. 12-15, 2013. Participants engaged in a variety of educational forums with esteemed Kellogg faculty including but not limited to leadership management, organizational change, negotiation strategies and crisis management.

The AAPD and Healthy Smiles, Healthy Children are proud to continue the Institute’s legacy that was established in 2004 when the AAPD partnered with Kellogg and Ultra-dent, Inc., for Leadership Institute, Cohort I. Recognizing that leadership is critical to HSHC’s mission of helping children in need, this experience provides the opportunity for participants to grow and refine their skills, becoming leading advocates in the fight for children’s oral health care.

Leadership Institute participants left Kellogg feeling energized and wanting more from their experience. Leadership Institute year two took place on Dec. 11-14, 2014, and participants look forward to their final year at Kellogg in 2015. Application information for Leadership Institute, Cohort V will be available in fall 2015.
